

PLANNING AND MANAGEMENT OF SCHOOL AND TRAINING SERVICES

The Master's Degree or Licentiate course in **Planning and management of School and Training Services** trains coordinators and leaders of schools of every type and level as well as vocational training centres. It enables graduates to coordinate and manage centres for the promotion and training of women and for adult education in settings with specific training needs.

Career opportunities

At the end of the course of study, graduates will be able to find work as:

- educators, educational consultants and experts in designing educational, teaching and training activities;
- coordinators, organisers and managers of educational services and vocational training;
- experts in planning and managing adult education and training;
- researchers in the field of education, particularly in the search for quality and innovation in the teaching profession and in leadership roles, in the organisation and management of schools and vocational training centres.
